

Accessing KumoScale Grafana Server

Complete the following steps to access the Grafana server.

- The Grafana server can be accessed at the address: *http://<cluster_VIP>*.

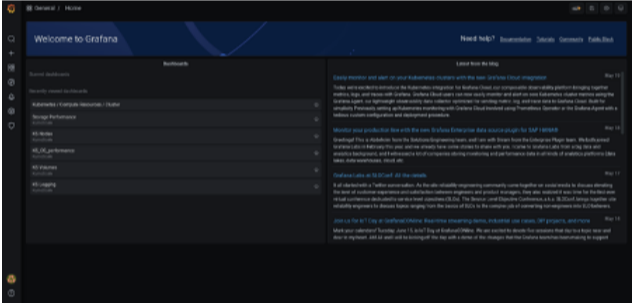

Figure 1 Grafana Login Screen

- On the login screen (shown above), enter the following credentials:

Email or username: admin

Password: ksAdmin

and click the Login button to go to the Grafana home screen.

- Click on the  symbol in the left hand column to display the **Dashboard** menu and pick **Manage** from the list.

You will see a list of dashboards on the screen. To add the KumoScale dashboards to this list unzip the file KS_Reporting_Dashboards.zip. This file contains JSON files that need to be imported into the dashboard as described in the next step.

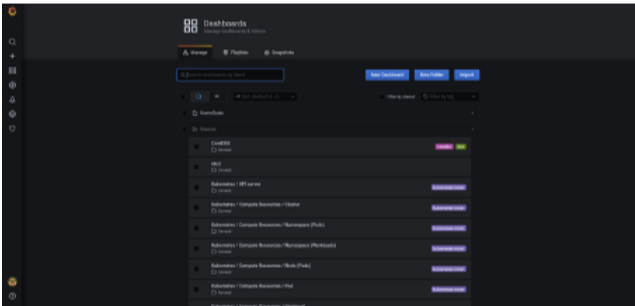

Figure 2 The Dashboard List

- There are two types of dashboards available:
 - To access the KumoScale cluster dashboards, go to KumoScale Cluster Dashboards.
 - To access the KumoScale storage dashboards, go to KumoScale Storage Dashboards.

To install your own dashboard or to download a dashboard from the web, go to Next Steps.
